@ Hanwha Vision
What's included

WALL MOUNT, PLATE

SCREW-SPECIAL   ANCHOR   SCREW-MACHINE
Product Features

This product is a Wall Mount used for installing cameras on a wall or vertical structure.
Installation Precautions

Make sure that the installation location can hold four times the total weight of this product and the camera to be installed.
When you install the product, using the installation screws contained in the product package is highly recommended.
If you want to install it on a concrete wall, you need to use the plastic anchor and the installation screws contained in the package.
Installation

1 For installation, use the plastic anchor and the installation screws contained in the product package.

  1) To mount it on the wall, use plastic anchors and tapping screws.
  2) To install in a gang box, use the machine screws.

  1)

  2)

2 Use the screws contained in the product package to install your camera.

3 Close the MOUNT WALL COVER contained in the product package.

Outdoor installation

When you install it outside of the building, please waterproof it with waterproof butyl rubber tape (can be purchased in stores) so that water does not leak from the gap of the cable connected to the outside.

1 Connect the PoE cable.

2 Wrap the black cable jacket (Area A) and the cable connection area with

waterproof (butyl rubber) tape so that more than half of the butyl rubber tape is overlapped.

⚠ ▪ If the cable jacket is not waterproofed properly, then it can directly cause leakage. Make sure to protect the cable with a dense layer of taping.

▪ Waterproof butyl tape is made of butyl rubber that can be stretched to twice its normal length.

Specification

Product Name	SBP-125WMW
Supported product	QNE-8011R/8021R * models can be added without notice
Color / Material	White / Aluminum, Plastic
RAL Code	RAL9003
Product dimensions / weight	126.46 x 160.03 x 104.49 mm (4.98 x 6.30 x 4.11"), 425 g (0.94 lb)
